

epoGEM - Fluorescent Colors

Fluorescent Blue

Fluorescent Red

Fluorescent Green

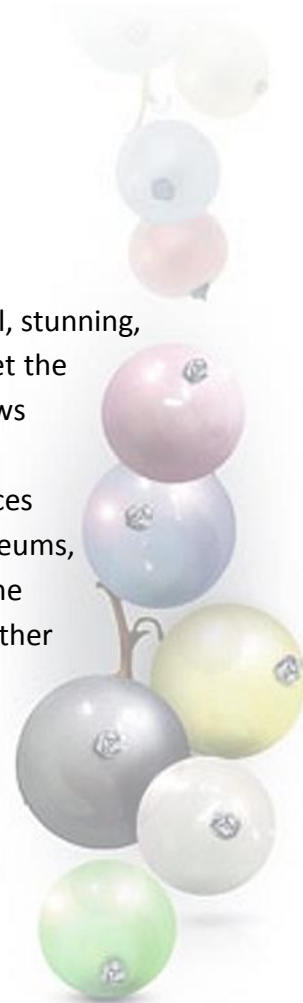

Fluorescent Yellow

Colors glow in the dark under black light.

By day a beautiful, stunning piece of jewelry; by night a beautiful, stunning, fantastically glowing and sparkling one of a kind masterpiece. Get the double effect with IAM **epoGEM** Fluorescent adhesive that glows in the dark under black light. Exquisite jewelry items made with **epoGEM** Fluorescent adhesive catch everybody's special in places where black light is the source of illumination like in discos, museums, amusement parks, and night clubs. Use the brightly glowing in the dark adhesive for Halloween jewelry, Christmas decoration, or other event decoration where the glow in the dark effect is not only a 'nice touch' but a prerequisite.

Due to your monitor and printer settings color samples shown may vary to original adhesive colors.
