

epoGEM - METALLIC EFFECTS

Silver Effect

Gold Effect

Copper Effect

IAM **epoGEM** Metallic color adhesives display strong, solid metallic effects with a glossy surface brilliance. Combine stylish and classy metal jewelry pieces or decor items with valuable gem stones, fashion crystal beads, or even interesting metal setting items to achieve the much desired metallic look. **epoGEM's** Metallic Effects bonding material is the perfect metal partner to support and boost your silver, gold and copper themed creations.

Due to your monitor and printer settings color samples shown may vary to original adhesive colors.
