

IAM *epoGEM* Jewelry Crystal Adhesive

THE GLUE THAT KEEPS ITS PROMISES!

IAM - International Adhesive Manufacturer is a young enterprise located on the Eastern Seaboard of Thailand and is specialized in the production of the adhesive *epoGEM*, an ingenious key-product that is used in the worldwide jewelry industry by crystals, polished brilliant, design-oriented with metal molds (Findings) to stick together and thus produce fashion jewelry in the higher price segment.

When we developed *epoGEM*, we knew we had to cover a long list of “needs”.

Here are some excerpts of the skills which make the difference of *epoGEM*:

- For 100% guarantee a permanent connection between foiled and not foiled crystals.
- Non-toxic, non-allergenic, has very short mixing times and be cooperatively while processing.
- A high resistance to scratches, shocks, bases and surfactants.
- Available in many colors and special effects.
- A competitive price for our customers!

We have accomplished all the above and then some, and nothing would make us happier than to prove that to you. All it needs is a quick call or email to the IAM representative already assigned to you.

We will gladly answer all the queries you have and send you our *epoGEM* Standard mixed sample kit free of charge and surprise you with fantastically affordable purchasing prices.
